## **CAS Clinical Trial Management**

An academic, in-service further education program that conveys consolidated theoretical and practical know-how for the conduct of clinical trials, and links academic research with everyday practice, furthering personal competence in methodologic, social and technical aspects. The Certificate of Advanced Studies (CAS) in Clinical Trial Management is proof of training in Good Clinical Practice (GCP) as required by Swiss laws.

## **CAS Clinical Monitoring**

This program conveys consolidated practical know-how for the monitoring of clinical trials, and provides the theoretical and practical knowledge required to apply quality monitoring in practice. After an in-depth theoretical training and under supervision of experienced Monitors the participants learn to apply in practice the acquired know-how of GCP conformant clinical monitoring.

## **CAS Clinical Data Management**

A third CAS programme at the CTC conveys detailed knowledge about all processes within the Data Management in clinical trials (eg. CRFs, Randomisation, Validation, Data Management Plan etc).
